

## M.For.Sc. Theses

Author	Year	Title
Swenson, G.L.	1973	The effect of geographic variation on the specific gravity of a Douglas fir provenance trial
Beets, P.N.	1974	Determination of the foliage surface area for <i>Pinus radiata</i>
Woo June Kee		New method of manufacturing fire-retardant veneer
Bondi, M.C.	1977	The effects of cultural treatments on water stress levels in field planted <i>Pinus radiata</i> seedlings
Sargento, J.	1978	Vegetative propagation of <i>Pinus caribaea</i> and <i>Pinus oocarpa</i> by means of needle fascicles
MacBrayne, C.G.	1979	An appraisal of the concept of forest grazing and an evaluation of its potential in the U.K.
Wilson, P.J.	1980	An appraisal of the Shigometer technique
Six Dijkstra, H.	1981	Architecture and age structure of terrace rimu forest at Saltwater, South Westland, New Zealand and the effect of selective logging by the parallel hauling method
Chan, Lek Lim	1982	The anatomy of the bark of <i>Agathis</i> , <i>Libocedrus</i> , <i>Dacrydium</i> , and <i>Phyllocladus</i> in New Zealand
Alexander, G.H.	1983	A methodology for forecasting forest harvest machinery demands
Fatah A.A.A.R.A.		Salt toxicity and fertilizers effect on <i>Eucalyptus camaldulensis</i> (Dehn.) seedlings
Grottker, T.W.	1984	On the potential of <i>Pinus radiata</i> for biomass production for energy in Eyrewell Forest, Canterbury Plains, New Zealand
Fielder, M.	1985	Forestry and people - A case study of community and work force attitudes toward Aupouri Forest
Stringer, D.		The prediction of the value of an investment in a shelterbelt
Martel, F.	1986	Community Forestry in Fiji
O'Reilly, R.N.		Planning and control in the management of wood flow
Liu Peiyu	1987	The predictive models of speed and fuel consumption of the log trucks in New Zealand
Turland, H.J.	1988	Modelling the forest sector of Fiji
Kuru, G.A.	1989	A diameter distribution growth and yield model for naturally regenerated and seeded stands of radiata pine in Kaingaroa Forest

- McDonald, D. Seedling/sapling light environment in different regeneration stages of lowland Podocarp forest, South Westland, New Zealand
- Tsehaye, A. Proof testing of juvenile wood
- Weir, C.M. Growth and yield of Kaingaroa radiata pine: performance of and alternatives to KGM3
- Lilley, F.J. 1990 The ecology and conservation management of *Chionochloa rigida* on Banks Peninsula, New Zealand
- Aruan, A.L.P. The minimum economic area for sawlog plantations in Indonesia
- Awimbo, Janet 1992 Rapid landscape assessment of representativeness for wildlife conservation, Hokitika Ecological District, New Zealand
- Bigcas, Evelyn The adaptive geometry of tree saplings in lowland Saltwater State Forest, South Westland, New Zealand
- Cornere, B.M. Population dynamics of a lowland terrace Rimu forest, South Westland, New Zealand
- Gea, Luis D. Prediction of breeding values for *Dothistroma* resistance over sites and series
- Hadi, Purwoko Strength properties of juvenile wood
- Mathers, Mojo C. Species diversity and stand development within a lowland terrace Rimu forest, South Westland, New Zealand
- Nash, Stuart A. 1993 The review of registered forestry investment prospectuses offering securities to the public in named and referenced forestry ventures in New Zealand between December 1988 to October 1992
- Owen, Hamish J. Mistletoe and the Brushtailed Possum in Silver beech forest, South Westland, New Zealand

Martin, Henry		Stand valuation modelling incorporating stochastic risk
Valentine, David A.		The effects of forestry operations and catchment development on lotic ecosystems in North Westland
Achmad, Budiman	1996	Stand table projections for mixed forest: a case study in Pt. Itci, East Kalimantan, Indonesia
Allum, Hope		Regeneration of a tropical rain forest after cultivation of <i>Piper methysticum</i>
Belen, Lorna P.		Effects of interspecific competition on photosynthesis and stomatal conductance of <i>Pinus radiata</i> in relation to water and nutrient availabilities
Bown, Horacio		Windthrow economics at the forest level in the Canterbury region
Bururu, Heather		Assessing the participation of Western Samoan women in a watershed management project
Dawe, Mark		Determination of the optimal level of pulpwood stocks that should be held to ensure continuity of supply to the Kinleith Pulp and Paper Mill
Ogle, Mike		Factors affecting the early growth and survival of indigenous seedlings planted for the purpose of ecological restoration
Lambert, Michael		Stem breakage of <i>Pinus radiata</i> during mechanical felling in Kinleith Forest, Central North Island, New Zealand
Ling, Michael K.S.		The development of a management information system for rubber plantations in Malaysia
Owen, David N.		An investigation of the use of computer axial tomography, magnetic resonance imaging and scanning electron microscopy for examining developing <i>Pinus radiata</i> D. Don seed cones
Ogle, R. Michael		Factors affecting the early growth and survival of indigenous seedlings planted for the purpose of ecological restoration
Allum, Hope R.	1997	Regeneration of a tropical upland rain forest after cultivation of <i>Piper methysticum</i>
Baker, Jared		Fine root dynamics in radiata pine in response to irrigation and competition on the Canterbury Plains
Middlemass, David		Logger attitudes towards media effectiveness in disseminating safety information
Novarly, John		Factors affecting resin tapper productivity. A case study in Kuningan Forest District, West Java - Indonesia
Poh, Constance C.		The evaluation of experimental treatments for promoting flowering in radiata pine grafts and seedlings

Santoso, Benyamin H.		Evaluation of harvesting using Madill 071 Hauler
Stronge, Simon I.		Review of transportation logistics and their application to fleet scheduling for New Zealand forest products industry, with an application
Widianto, Mohamad		The effects of village-city interaction on the success of social forestry programs in four locations in Cianjur Forest District - West Java
Bennison, Stephen	1998	An evaluation of the risk and return of diversifying into forestry on a sheep farm using the Capital Asset Pricing Model
Dronfield, Jonathan		<i>Nothofagus menziesii</i> regeneration in natural and small-group selection logging gaps
Kadarwati, Tri Esti		The equilibrium moisture content of medium density fibreboard and its components
Horrell, Brendan R	1999	Nelson region indigenous forest resource inventory: integrating satellite remote sensing and GIS for natural resource management
Iqram, Abu		Review of various aspects of pine pitch canker: biology and management
Malecдан, Marilyn		Effect of Sodium (Na) on Magnesium (Mg) uptake in beans ( <i>Phaseolus vulgaris</i> L.)
Setiawan, M. Insad		The influence of spatial arrangement of sub soil compaction on the root growth of radiata pine seedlings
Suchodolak, Geraldo		Feasibility of a Brazilian style pine R.T.A. furniture factory in New Zealand
Venegas, Victor		A comparative analysis of the New Zealand and Chilean public forestry sectors
Watt, Mike		Study into the influence of genetic improvement on second log branching in radiata pine
Munthali, Shadrick S	2000	Towards achieving co-management of Tanzania Public Forests
Shingleton, Anna		Forest biosecurity: an analysis of the framework in New Zealand
Chanyenga, Tembo	2001	Woodland management plan for Silverwood
Dreyer, Michael		The Forest Stewardship Council certification of Gowan Hill Forest; implications for the sustainable management of New Zealand's indigenous forests
Iskander, Dudi		The relationship between least limiting water range and productivity of <i>Pinus radiata</i> D. Don seedlings
Madondo, Mandy		The effects of frost reduction treatments on seed yield in a radiata pine seed orchard

Vuki, George		In-field processing options of pulp logs and transportation options of woodchips for Fiji Pine Limited's Southwest Forests
McKenzie, Tim	2004	Integration of GPS, GIS and remote sensing to facilitate explicit red deer – resource interactions in the Canterbury high country of New Zealand
Martana, Kadim		Assessing decisionmakers' perceived preferences to plantation establishment in Indonesia
White, Antony	2005	Regeneration in natural and single tree selection harvest gaps in Saltwater Forest, south Westland
Bierlin, Timo	2007	Hare's and rabbit's habitat utilization: a review and proneness model
Daugherty, Jamielyn		The Styx River: a review
Klein, Norbert		Habitat selection model for feral goats ( <i>Capra hircus</i> ) at Isolated Hill Scenic Reserve: represented by a geographic information system
Tamanikaivavalagi, Saimoni		"Fiji Mahogany" – adding value and maximising opportunities for export to the United States of America and its future on Fiji's economy
Arihafa, Arison	2008	The use of a Geographic Information System (GIS) in determining the past and present vegetation pattern of Tiromoana Bush, northern Canterbury, 1950-2005
Noria, Andrew		Assessing the success of restoration plantings at Cape Foulwind, Buller, New Zealand
Makrosimnok, Lucas		Establishment and growth of forest seedlings in regenerating forest, Tiromoana Bush, North Canterbury
Titiulu, Terence	2009	Opportunities for plantation forestry as an alternative to unsustainable commercial logging in the Solomon Islands
Xian, Zhuo (Wendy)		The current situation of furniture market in Shanghai and Beijing

## Ph.D. Theses

Author	Year	Title
McEwen, A.D.	1976	An examination of the accuracy of the data collected from the yield research plots of the Forest Research Institute
Draper, D.A.	1980	Crown biomass response of 7 year old <i>Pinus radiata</i> D. Don to fertilisation and thinning
Doyle, J.	1981	The hardness of wood
Bathgate, J.L.	1982	Holloway's Climatic Change Hypothesis - a quantitative evaluation in the Longwood Forests, Vol. 1 & 2
Hayward, P.J.	1982	Sprinkler storage of windthrown <i>Pinus radiata</i> at Balmoral, New Zealand
Lowell, K.E.	1984	Incorporation of the effects of fertiliser into an existing computer growth model for Golden Downs Forest, Nelson Region, New Zealand
Gunzerodt, H.H.	1985	The effects of compression rolling on sawn timber
Archer, K.H.	1986	Bacterial modification of Douglas Fir roundwood permeability
Broad, L.R.	1987	A mixed integer linear programming approach to forest utilisation management problems
Thomas, R.C.	1987	Retention of N-15 labelled urea in a radiata pine ecosystem: effect of split applications
Woollons, R.C.	1988	Analysis and interpretation of forest fertilizer experiments
Hawkins, B.J.	1989	Investigations of the physiology and genetics of the New Zealand conifers: Rimu, Kahikatea and Totara
Johnson, S.	1989	Modelling regional forest industry development in New Zealand
Tilling, A.J.	1989	Alternative use of West Coast indigenous forests
Clinton, P.W.	1991	Competition for Nitrogen and moisture in a <i>Pinus radiata</i> pasture agroforestry system
Duncan, R.P.	1991	Disturbance, succession, and the co-existence of species in a lowland Podocarp forest, South Westland, New Zealand
